continued on reverse

Our IVD Rongeurs should provide trouble free use when cared for properly. All ronguers should be inspected prior to every use, kept sharp and lubricated regularly. Special care should be taken to inspect for dullness and for any loose screws that could back out during surgery. All damaged instruments should be removed from service. All Gen2 Medical products are guaranteed to be free of defects in workmanship and materials when used properly for their intended surgical purpose. Any product proving to be defective will be replaced or repaired, at our discretion, at no charge to the customer.
